Connected Homes Program

Reducing peak energy usage is an important step in helping the Commonwealth meet its greenhouse gas emissions goals. As electrification increases, municipal light plants (MLPs) are proactively implementing measures to reduce peak loads, during which less efficient resources must run to meet demand. One way they're doing this is through the Connected Homes demand response program, which leverages the technology of smart devices into savings for the light department and consumers. Learn more about Connected Homes and the incentives available to customers enrolling smart devices in the program, offered by participating MLPs.

Notice for Google Nest Customers: Effective January 1st, 2025, GOOGLE NEST customers will have their monthly incentive calculated as a result of the number of Google Nest customers who participated in the given event. For example, if 50 out of 100 enrolled MMED Google Nest customers participate in an event, NextZero would multiply the participating customers (50) by the \$5 incentive amount, resulting in \$250 in total incentives earned by Google Nest customers. This \$250 would then be evenly distributed amongst all enrolled MMED Google Nest customers (\$2.50/customer). This change is a result in Google Nest not sharing information as to which specific device participates in an event.

Eligible Devices

Refer to the table below to learn which devices and brands are eligible for participation in Connected Homes.

Smart Devices	Qualifying Brands	Monthly Incentive
Battery	Duracell, Emporia	\$30
Electric Vehicle	Acura 2024+, Audi 2019+, BMW 2017+, Hyundai 2017+, Jaguar 2019+, Kia 2017-2021, Land Rover 2019-2021, Lexus 2023+, Mini 2020+, Nissan 2023+, Tesla 2012+, Toyota 2021+, Volkswagen 2020+	\$10
Electric Vehicle Charger	ChargePoint, Emporia	\$10
Electric Hot Water Heater	GE, Rheem	\$5
Mini-Split Controller	Flair, Sensibo	\$5
Wi-Fi Thermostat	Amazon, Honeywell/Resideo, Sensi	\$5
Wi-Fi Thermostat	Google Nest*	up to \$5
