

**Mansfield Municipal Electric Department
Minutes of Light Commissioners Meeting
February 24, 2025**

Present: Chair Brendan Roache, Vice Chair Walter Wilk, Commissioner Michael Trowbridge, Light Department Manager Joseph Sollecito

1) Open Meeting – Call to Order and Pledge of Allegiance. The meeting was held at the Mansfield Town Hall Room 2AB and called to order at 6:04 PM followed by the Pledge of Allegiance.

A complete copy of the Board packet containing all documents that are referenced in the minutes is on file at the Mansfield Municipal Electric Department office.

2) Review and consideration to approve the January 27th, 2025 board minutes.

Motion to approve Board minutes of January 27th, 2025. (Trowbridge/Wilk) passes 3/0

3) General Managers Report

a) Vote to approve Memorandum of Agreements (AFSCME Local 1702 & IBEW 104 financial Assistants unit)

Manager Sollecito goes over that both contracts stay relatively the same with a COLA increase for the first year and a 3% the next two years. AFSCME is adding testing for distribution transformers. For the Assistants they added a 5th personal day instead of taking it from sick. HR did state that other contracts have the same agreement.

Motion to approve the memorandum of Agreements (Trowbridge/Wilk) passes 3/0

b) Review J. Hayes memo regarding repair work to distributive generator.

Manager Sollecito states the distributive generated was implemented in 2018. It is run based on MMWEC recommendation to avoid peak power periods. The peak is known about 20 days after the month has ended to see if we have saved costs. The savings from the generator has exceeded the payback period. Recently the unit wasn't running at peak capacity. When the team did an inspection check they found oil around the bottom of the unit. There was damage to the bellow and needed to be repaired. The system is still under warranty so the repairs did not cost anything. The unit was repaired right before the next peak day and was successful.

C) Review H. Jaffari memo regarding Clark Shore Association/Lake View Condominium Underground Conversion Project.

Manager Sollecito explains there is single-phase primary feeding the Lake Shore area that is not in good shape. The trees cannot be cut down due to an ordinance and the electrical system is in the mist of this. MMED (H. Jaffari) has been working on a solution for this area. The plan is to locate the primary underground and then the secondaries will go to the houses. The cost is approximately \$850K for 12 customers. Manager Sollecito wanted to bring this to the boards attention since it can be a safety issue. Commissioner Trowbridge responding by saying that this is not a normal situation and those 12 houses started as summer cottages before becoming a year-round house. Chairperson Roache agreed that this is a safety issue and is worried that it could start a fire and he does not see an issue with this upgrade.

D) Review H. Jaffari memo regarding cellphone provider.

Manager Sollecito explained that a lot of town departments have moved over to ATT for their cell phone providers. While we have Verizon there has been issues with service around town. Chris Trask, Brian Klinkhamer, and Hamid Jaffari have been tasked to try out the ATT phones to see where the drop spots are and see how the service is. If we switch we will actually save \$8 a month. The dept will be moving forward with ATT.

E) Update on State Regulatory issues

Manager Sollecito reviewed that the board asked him to reach out to the state MMA in regards to the initiatives that the commonwealth is trying to start. He did so and spoke with a few people on the board of the MMA. There was a meeting set up the impression that was given was that they wouldn't be able to move the concerns along. Manager Sollecito referenced how the clean truck regulations could create concern with the utility companies. Vice Chair Wilk brought up the concern of cost for these issues. Manager Joseph Sollecito explained that giving out data to other companies is an issue and MEAM is working with legal counsel to review these issues. DOER was sympathetic to the issue but didn't seem to be able to assist.
